To whom it may concern,

I would like to express my gratitude and support for the vocational rehabilitation services provided by Sandi Glover and the Multiple Solutions team here at the Trevor Parry Centre.

Sandi has been providing weekly appointment times to Southern Mental Health clients residing at the Trevor Parry Centre since January 2015. Over this time, Sandi has worked with numerous individuals to identify existing areas of strength and construct future development goals. Support plans have included compilation of resumes, access to further training and education programs, development of interpersonal and communication skills as well as linking with volunteering and paid work positions.

Residents at Trevor Parry Centre benefit immensely from the in reach service provided by Multiple Solutions in a way that is not readily accessible through community based services. People living with mental illness often face additional barriers to accessing services through stigma, poor self-confidence and lack of support. Sandi has extensive skills and ability to engage with a complex range of personality types and form trusting relationships with people to work alongside them.

Previous clients at the Trevor Parry Centre have made significant individual gains with the assistance of Multiple Solution appointments. This has included the specific example of a 38 year old man with a diagnosis of paranoid schizophrenia who was able to transform his long-term pattern of self-neglect and isolation in order to present himself in a uniform every day through a vocational training program in order to return to paid employment.

Speaking on behalf of our centre, we would greatly value the continuation of services provided by Multiple Solutions.

Please contact me if I can provide any further information.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Rootsey".

Leanne Rootsey
Acting Manager
Trevor Parry Centre
